Please join the Division for Equity and Inclusion to discuss, identify, and work toward solutions to improve campus climate for Black students at UNM.

We will examine the potential that **#BLACKLIVESMATTER** has to address specific issues, impact decision making in a positive manner, and ultimately transform institutional spaces to become better models of inclusive excellence.

The goal of this project is to build a broad based multigenerational coalition committed to developing and presenting a strategic plan to improve campus climate for Black students at the University of New Mexico.
